

Northbrook Hill

July 23. 1906.

Dear B. Lovell -

As I have mentioned

very often before now, & will like to call
on you one of these days at your place
as I have been where you have been. The only
thing the wife & I need evenings &
week mornings; & I must not let any one
be before with the work. But it
would be pleasant to walk around your
place again with you & the boys, & have
you & the girls on Northbrook
with us.

With greetings - from

to home.

I am yours

L. C. Buffum
